

# GEARSPACE™ 34 Cargo Carrier Options

## LandingGear™: Ease of Use Mobility System for GearSpace™ 34 cargo carrier.

Light Duty Model designed to aid the installation and removal of GearSpace™ 34 from the hitch when empty. Wheel support allows for rolling away from vehicle to place in storage area such as the garage.

- Kit consists of three (3) “E-coated” leg assemblies with 5” diameter wheel casters and heavy zinc coated hardware.
- Maximum weight rating: GearDeck™ 17 and GearSpace™ 34 carriers empty.
- Height adjustable legs for varying vehicle hitch heights.
- Secure catch release mechanism allows for each leg to fold down or up.

Two sizes available for varying hitch heights:

### Standard Length LandingGear (Part No. ACC 3280)

Provides 16” carrier height for hitch installation and requires 11” minimum hitch height

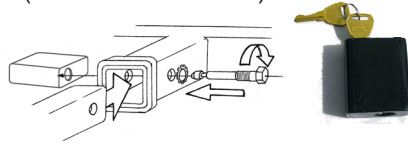

### Long Length LandingGear (Part No. 3281)

Provides 20” carrier height for hitch installation and requires 15” minimum hitch height

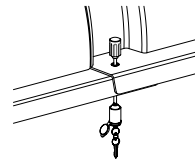

## Silent Hitch Pin™ Lock: Locks carrier to vehicle.

Lock shown fits the two Silent Hitch Pins™ furnished with every cargo carrier by LGA. Two locks required for securing both Silent Hitch Pins™. (Part No. ACC 3250)

## Pin Lock: Additional lock for added security of your GearSpace™ 34 carrier.

One stainless steel lock is furnished with every GearSpace™ 34 carrier. Additional lock option for vehicle side. (Part No. ACC 3251)

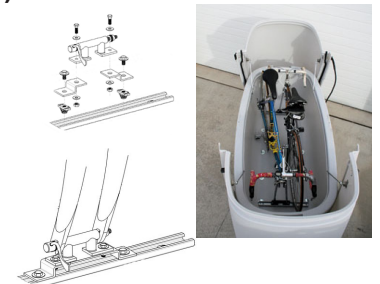

## 7” Hollow Extension with Silent Hitch Pin™

This hitch extender for 2” receivers provides additional clearance between vehicle’s hitch and cargo carrier, and comes with a Silent Hitch Pin for complete stability. The hollow construction is unique (most are solid) and enables the use of the Silent Hitch Pin for rattle-free performance. (Part No. ACC 3020)

## Bike Mounting Hardware Kits: Transport up to two bicycles (most bike sizes) using hardware for securing bicycles inside carrier.

Order up to two Hardware Kits for transport of up to two bicycles inside GearSpace™ 34. Fits two standard bicycles (mountain or road) with frames up to 60 centimeters. One bicycle may be accommodated if larger than 60 centimeters. Kits include Hardpoint C-Channel track, mounting hardware, quick release, bungee retainer. (Sold Individually, Part No. ea., 3003)

## Tie Downs: D-Rings, Four Pack

Provides attachment point for securing cargo inside GearSpace™ 34. D-Rings may be placed on base using existing bolt points and hardware, or install inside lip of carrier base (drill and nuts/bolts required). (Part No. 3255)
